What kind of representation are you making?

- ☐ Final Comments
- ☐ Proof of Evidence
- ☐ Statement
- ☐ Statement of Common Ground
- ☒ Interested Party/Person Correspondence

☐ Other

YOUR COMMENTS ON THE CASE

It has come to my attention that CKHutchingson Network have applied to erect a 15 metre 5g telecom post on the corner of Wiltshire and Belmont Road Chandler's ford. This sight is just across from where I live. Not only will it be in my direct eyeline it will almost certainly be the only thing I will see when looking out the window. I understand that permission was refused last year and am wondering what has changed for them to be able to do it this year. The visual impact that this would have will be awful and surely the tree that is already there and thriving would need to be removed.

Also being in poor health and suffering from cancer and its related conditions fills me with fear. I understand that health issues are not supposed to be affected by these installations but there is plenty of evidence to support that if you live close enough to one of these things then you could over time become sick. Having to fight to keep myself healthy I would rather not have this installation right outside my window.

Many thanks for taking the time to read my response
