

Bishopstoke Manor - proposed tree works. May 2023

Tree no.	Species	Location	Ht (m)	Stem diameter (mm)	Age Class	Physiological condition	Structural condition	Preliminary recommendations and reasons for works	Priority rating	Notes
T1	Ginkgo	Northwest corner of dwelling	16	610	Ma	Good.	Good. Single straight column. Few stubs to east.	Proximity prune to clear property by up to 2m: max cut size 60mm diameter. Keep ivy off stem.	2 - within one year	Historic soil level changes. Ivy starting to grow - 3m up stem
T2	Robinia	West lawn	10	1280	OMa	Poor. Small remaining canopy. Large sections dead.	Poor. One vertical leader from truncated stem at 6m to west.	Fell leader back to attachment point to remove risk of failure - within falling distance of neighbouring property. Trim small diameter (max 50mm diameter) epicormic growth up to 2m above ground level to reduce risk of harm while using garden and carrying out maintenance.	2 - within one year	Useful habitat.
Both trees protected by TPO reference Area order 69-H and by Bishopstoke Conservation Area - no works to be done until written consent is obtained.
