What Are You Applying For?

Based on the type of work proposed and the location and protected status of the trees involved, there are various details and supporting information that will need to be supplied in order for the Local Planning Authority to determine the application.

Are you seeking consent for works to tree(s) subject to a Tree Preservation Order?

- ☐ Yes
☒ No

Are you wishing to carry out works to tree(s) in a conservation area?

- ☒ Yes
☐ No

Documents and plans (for any tree)

A sketch plan clearly showing the position of trees listed in the question 'Identification of Tree(s) and Description of Works' MUST be provided when applying for works to trees covered by a Tree Preservation Order.

A sketch plan is also advised when notifying the LPA of works to trees in a conservation area ([see guidance notes](#)).

It would also be helpful if you provided details of any advice given on site by an LPA officer.

Are you providing additional information in support of your application (e.g. an additional schedule of work for the question 'Identification of Tree(s) and Description of Works')?

- ☒ Yes
☐ No

If Yes, please provide the reference numbers of plans, documents, professional reports, photographs etc in support of your application

Photo (P1) - screen capture from Google Maps showing overall context
Sketch (S1) - overlay of P1 showing more specific detail for site of work
Photo (P2-4) - photographs of the limbs to be removed.

Identification of Tree(s) and Description of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out

Under the canopy of a mature oak. A laurel bush has grown into a low tree across the boundary between Friarmayne residence and Glebe Meadow owned by Bishopstoke Parish Council (BPC) - see Photo P1 and Sketch S1.

The limbs of this low tree are now being used by local youngsters as a den (including littering and smoking of marijuana - see Photos P2 and P3). The primary reason for this application to remove the overhanging tree limbs is that the youngsters have on several occasions used them to access our property. This is dangerous for them, one smaller limb has been broken, they cross barbed wire (part of the boundary maintained by BPC) and is above head height should they fall (see photos P3 and P4). When approached the youngster scramble back (again dangerous) and are very abusive and this has made us nervous to approach the youngsters and what they may do if we are not in the property when they cross. This situation has now been reported to BPC who have agreed that the limbs should be cut back (photo P4 and is responsibility of Friarmayne) and then the boundary fencing will be repaired by BPC (contact is David Wheal - clerk@bishopstokepc.org).

We have a professional contractor ready to undertake the work subject to this planning permission.

The work consists primarily of removing large limbs - see photos - which are used to climb and access our property.

We are very aware and proud of the historical

context of our property and have worked with EBC to ensure all work we do is to maintain and improve the natural habitat and historical nature of this ex-arboretum.

We believe that the removal of these three limbs (plus other balancing/tidying as required) will in no way impair the area and will improve both safety for local youngsters and the security of our boundary (agreed with BPC).

I have included photos showing that this enlarged laurel is sitting under the canopy of a mature (stag) oak (photos P2 and P5) - this lovely tree will only benefit from the removal of the laurel.

You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work.

Where trees are protected by a Tree Preservation Order, please number them as shown in the First Schedule to the Tree Preservation Order where this is available. You should use the same numbering on your sketch plan (see below for sketch plan requirements).

Please provide the following information:

- Tree species
- The number used on the sketch plan; and
- A description of the proposed works.

Where trees are protected by a Tree Preservation Order you must also provide:

- Reasons for the work; and where trees are being felled
- Proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

e.g. Oak (T3) – Whole crown reduction to 12m above ground level, to provide sufficient clearance to property.

Sketch plan requirements

Your plan needs to show the precise location of the tree(s) in relation to nearby property/roads/boundaries. It should, therefore:

- indicate the main features of the site where the tree(s) stand and its surroundings; in particular, you should:
 - mark and name surrounding roads
 - sketch in buildings, including adjoining properties
 - add house numbers or names
- mark the position of the tree(s) to which you want to carry out work and identify them by the number shown in the Tree Preservation Order where possible; if you use a different number, please make sure that this can be matched with your description of the tree(s)
- if there are many trees on the site, make clear which tree(s) are included in this application by:
 - marking all trees on the plan, but only numbering those to which you want to carry out work
 - showing the approximate distance between the application tree(s) and buildings
 - adding other relevant features on the site (e.g. greenhouse, paths)

If it is impossible to identify the tree(s) accurately on the plan (e.g. because they are part of a woodland or group of trees), please identify their approximate location on the plan and provide details of how the tree(s) are marked on site (e.g. high visibility tape, tree tags, paint, etc); trees must not be marked by scarring or cutting into the bark.

Tree Ownership

Is the applicant the owner of the tree(s)?

- ☒ Yes
☐ No

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- ☐ Yes
- ☒ No

Declaration

I / We hereby apply for Tree works: Trees in conservation areas/subject to TPOs as described in this form and accompanying plans/drawings and additional information. I / We confirm that, to the best of my/our knowledge, any facts stated are true and accurate and any opinions given are the genuine options of the persons giving them. I / We also accept that: Once submitted, this information will be transmitted to the Local Planning Authority and, once validated by them, be made available as part of a public register and on the authority's website; our system will automatically generate and send you emails in regard to the submission of this application.

☒ I / We agree to the outlined declaration

Signed

Jon Watkins
