Subject: F/22/93194 - Care Homes Needs Survey

I am responding further to your request about the Care Homes Needs Survey received 24.4.23.

The Planning Policy objection to application F/22/93194 (dated 6/2/2023) stated that the Care Home was contrary to policy as it did not provide justification for its location outside the area identified for residential uses. The Care Homes Needs Survey does not address the location of the proposed Care Home. The survey does not therefore change the Planning Policy comments on this application.

Thanks
Dawn
