Hi Alex

I had now had the opportunity to look to the application above and my comments are as follow:

I have no objections in principle to the proposed re-roofing works; however, due to the fact that the building is in such a prominent location, facing a primary street, with a traditional and exemplar frontage, it would be encouraged to replace the roof with a similar material as the current one. Plain clay tiles are natural, more noble and they weather naturally, in keeping with other commonly used walling materials such as clay bricks, adding a beautiful finishing touch to the roof of any building.

I hope this comment is of help.

Kind regards
Marta
