Eastleigh
Hampshire
SO50 9YN

Dear Sangita Thapa

Thank you for your enquiry dated Wednesday, 10 May 2023

Thank you for your '**planning application/property conveyance works**' plant location/mapping enquiry.

Please find an extract from our mains records for your search area, any SGN assets are described in the map legend. On the mains record you may see the low/medium/intermediate pressure gas main within or near your site. On some occasions maps may be sent that do not contain any gas pipes, this is due to the location of your proposed work area within our depot/office boundaries.

Please note this response and any attached map(s) are only valid for 28 days.

This response is for planning/proposed work only.

In the event that gas pipes are present within your site, there may be restrictions on the work being undertaken to ensure the safety of your site and the protection of the gas pipes.

When works on site are due to start, another request for information and updated maps must be made via our on-line system.

This mains record only shows the pipes owned by SGN in our role as a Licensed Gas Transporter (GT). Please note that privately owned gas pipes or pipes owned by other GTs may be present in this area and information regarding those pipes needs to be requested from the owners. If we know of any other pipes in the area we will note them on the plans as a shaded area and/or a series of x's.

The information shown on this plan is given without obligation or warranty and the accuracy cannot be guaranteed. Service pipes, valves, siphons, stub connections etc. are not shown but their presence should be anticipated. Your attention is drawn to the information and disclaimer on these plans.

It must be stressed that both direct and consequential damage to gas plant can be dangerous for your employees and the general public and repairs to any such damage will incur a charge to you or the organisation carrying out work on your behalf. Your works should be carried out in such a manner that we are able to gain access to our apparatus throughout the duration of your operations.

If you require any further information please do not hesitate to contact us.

Yours sincerely,

The Safety Admin Team
