Description

Please describe details of the proposed development or works including any change of use

Demolition of the existing dwelling house and garage and replacement of both.

Has the work or change of use already started?

- ☐ Yes
- ☒ No

Explanation for Proposed Demolition Work

Why is it necessary to demolish all or part of the building(s) and/or structure(s)?

The existing house has a disjointed floor plan with seven split level storeys. Whilst offering no architectural significance to the conservation area, the existing dwelling lacks a sustainable design, is poorly constructed by modern standards and has very poor thermal properties. The existing garage is too small to house the size of today's cars and has therefore become useless in this purpose. It has become an obstruction to the driveway when entering from the main road and is particularly awkward to get to.

The current site is lived on by the current owners whom we are applying on behalf of.

The LPA consider the overall design approach to be an improvement when compared to the existing dwelling house and previous schemes. Concern was raised over the volume exceeding the 25% limit and it was mentioned that if this volume could be addressed and reduced, the proposals are likely to be capable of officer support.

- (b) an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
