

DELEGATED OFFICER REPORT

Application Ref: H/23/95048

Site Address: 15 MAIDMAN PLACE, HEDGE END, SOUTHAMPTON, SO30 4DE

Case Officer: Dorothy Hei-Tung-Hoh

Description: Single storey rear extension

Particular Site Constraints?	Yes ☒	No ☐
• Within Established Residential Area • Within Built-up Area Boundary • Tree Preservation Order(s)		

Planning History?	Yes ☐	No ☒
There does not appear to be any planning history relating to the site.		

Publicity:	Letters ☒	Site Notice ☐	Newspaper ☐
Representations:	No comments received		
Parish Council:	No objection		
Tree Consultant:	No arboricultural objection to the proposals		
Southern Water:	It is possible that a sewer now deemed to be public could be crossing the development site. Therefore, should any sewer be found during construction works, an investigation of the sewer will be required to ascertain its ownership before any further works commence on site. Southern Water requires a formal application for any new connection to the public foul sewer to be made by the applicant or developer.		

Site Visit:	Yes ☒	No ☐
Details: 18 th May 2023		

Policy:
National Planning Policy Framework Planning Practice Guidance
Development Plan: The <u>Eastleigh Borough Local Plan 2016-2036</u> The most relevant policies are Strategic policies S1 and S2; and Development Management policies DM1, DM2, DM11 and DM14.
Supplementary Planning Documents: Quality Places; Residential Parking Standards; Character Area Appraisals.

Assessment:
The application site comprises a two-storey detached dwellinghouse located on a corner plot. To the rear is private garden amenity space. The application property forms part of a fairly new modern housing estate and as such the surrounding area is predominately residential in character, formed of properties of similar ages. The application seeks approval to construct a single storey rear extension, which would project 4.0m from the

rear and measure 5.0m in width. The proposal also includes one roof lantern and bifold doors to the rear and side elevations of the single storey rear extension. The development is considered acceptable and complies with policies DM1, DM11 and DM14 from the 2016-2036 local plan, in that:

Principle

- The application site lies within an established residential area where the basic principle of development is acceptable, with any formal approval being based upon the exact nature, design, and impact of that proposed being considered acceptable and in accordance with the relevant policies within the adopted local plan and supplementary planning guidance.

Character and Design

- Policy DM1 of the Eastleigh Borough Local Plan (2016-2036) stipulates that all new development should respect the character and appearance of urban areas, take full and proper account of the context of the site including the character, appearance and land uses of the locality or neighbourhood, and be compatible in terms of mass, scale, layout density, design, and siting.
- The proposed single storey rear extension would not harm the appearance of the host dwelling itself, which is considered to be a proportionate addition to the existing property. The materials would be red coloured brickwork to match the existing house. Further, it would not be an overdevelopment of the site, would retain sufficient amenity space.
- Whilst the top of the roof and lantern light would be visible from the street scene, they would not prominently visible and therefore would not cause any detrimental harm to the wider area.

Impact on Residential Amenity

- Policy DM1 of the Eastleigh Borough Local Plan (2016-2036) amongst other matters, stipulate that all new development should not have an unacceptable impact upon residential amenities of both new and existing residents.
- The proposed rear extension is quite modest in scale and size, which would maintain sufficient distance between the property and its neighbours. As such, it is not considered to encroach any neighbouring properties and is unlikely to impact on the amenities of 16 Maidman Place.

Trees and landscaping

- Despite a TPO covering the application property, there are no significant trees in close proximity to the proposed development area. Therefore, the Council's Tree Consultant raised no arboricultural objection to the proposals.

Highways and Parking

- Policy DM14 of the Eastleigh Borough Local Plan (2016-2036) requires residential development to provide off-highway parking which is adequate in terms of highway safety/traffic management.
- The proposed rear extension is not used as an additional bedroom and therefore the proposal would not impact on the existing car parking arrangements.

Climate Change:

In July 2019, the Council declared a Climate Change and Environmental Emergency. In doing so it agreed, among other things, to: (a) put in place measures to ensure the Council's own operations and functions achieve carbon neutrality by 2025; (b) work with partners to aim for all projects and services delivered in the Borough to achieve carbon neutrality by 2030; (c) ensure that the Council's procurement policy recognises carbon neutrality as one of its primary considerations; and (d) recognise the urgency of action to mitigate and adapt to climate change in every decision taken by the Council. This is underpinned by the Climate and Environment Emergency Strategy 2020–2030 and the supporting Climate and Environment Emergency Action Plan – Update June 2020.

The declaration of the Climate Change and Environmental Emergency demonstrates a strong commitment from the Council to achieve net zero. The NPPF, development plan and adopted local plan policy do not set this as a specific target, but it is a material consideration to be considered alongside all other material considerations. In any case addressing climate change is a core part of the NPPF and local plan policy. The need to support the economy is part of the Strategic Environmental Assessment for the adopted local plan, as is an assessment of climate impacts.

The NPPF, Policies S1, DM2 and DM3 of the Local Plan and energy and water elements of the adopted Environmentally Sustainable Development SPD require development to be sustainable in terms of resource use, climate change and energy use. When considering the impact of climate change, the proposed development is expected to be resilient to the potential effects of climate change.

Equalities Implications:

Section 149 of the Equalities Act 2010 created the public sector equality duty. Section 149 states:

- A public authority must, in the exercise of its functions, have due regard to the need to:
 - a. eliminate discrimination, harassment, victimisation and any other conduct that is prohibited by or under this Act;
 - b. advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not share it;
 - c. foster good relations between persons who share a relevant protected characteristic and persons who do not share it.

When making policy decisions, the Council must take account of the equality duty and in particular any potential impact on protected groups. It is considered that this application does not raise any equality implications

Conclusion:

- Subject to conditions
- The proposed single storey rear extension is considered modest in size and would be in proportion to the existing dwelling. The proposal is also acceptable in terms of its impact on residential amenity, highway and trees. As such, it can be recommended for approval.
