Town and Country Planning Act 1990
The Town and Country Planning (Development Management Procedure) (England)
Order 2015

Application No. H/23/95129

In pursuance of their powers under the above Act and in accordance with your application received on Thursday 11 May 2023 the Council, as Local Planning Authority hereby **Permit** the following :

Description: Two storey side extension and second storey above a garage.
Site: 48 STUBBINGTON WAY, FAIR OAK, EASTLEIGH, SO50 7LR

Subject to due compliance with the following conditions:

- 1 The development hereby permitted shall be implemented in accordance with the following plans numbered: LOC 01, BLOC 01 and Woodhouse 380.1

Reason: For the avoidance of doubt and in the interests of proper planning.

- 2 The development hereby permitted shall start no later than three years from the date of this decision.

Reason: To comply with Section 91 of the Town and Country Planning Act 1990.

- 3 The materials to be used in the construction of the external surfaces of the development hereby permitted shall match in type, colour and texture those used on the existing building.

Reason: To ensure a satisfactory visual relationship between the new development and the existing.

Note to Applicant: In the unlikely event of any bats being found during

demolition or construction, all work must stop immediately, and Natural England must be called. Additional information is available on the Bat Conservation Trust website at <https://www.bats.org.uk/advice/im-working-on-a-building-with-bats/ive-found-a-bat-during-works>.

Note to Applicant: It is recommended to install a bat brick and a swift brick to this building. The Bat Conservation Trust recommends installing a bat brick/box at least 4 m above the ground, away from artificial light sources, sheltered from strong winds and exposed to the sun for part of the day, facing south, south-east or south-west. (<https://www.bats.org.uk/our-work/putting-up-your-box>) Swift nest boxes are best positioned under the eaves or on walls facing north, northeast or north-west out of direct sunlight, five metres above the ground, with clear adjacent airspace so swifts can access them in a high-speed direct flight. (<https://www.swiftconservation.org/Nestboxes%26Attraction.htm>). In addition to a bat brick and a swift brick, flowering plants to attract pollinators would also be a good biodiversity enhancement for this site.

Note to Applicant: It is requested that the building works are carried out considerately to minimise disruption to the occupiers of the neighbouring properties. The council operates a code of best practice, which is available on the council's website www.eastleigh.gov.uk by following the links to Planning and Building, Building Control, then select 'Considerate Builders Advice Note'.

Note to Applicant: In accordance with paragraph 38 of the National Planning Policy Framework (July 2021), Eastleigh Borough Council takes a positive approach to the handling of development proposals so as to achieve, whenever possible, a positive outcome and to ensure all proposals are dealt with in a timely manner.

Yours faithfully

A handwritten signature in black ink, appearing to read "Andy Grandfield". The signature is fluid and cursive, with the first name "Andy" being more prominent.
