Describe the works required

Tree uplift in recycling area

Why do we need to do it? (e.g. mandatory or statutory, beyond economical repair)

Low hanging lime trees in solid contact with recycling units and potential to damage vehicles

How will you do it? (e.g. How will you programme works to mitigate risks)

Our certified team will attend site and uplift the lime trees highlighted on the attached map. They will be uplifted back to fence line to a height of 5.2 metres, or as high as can be achieved. The works will take place from ground level using an extended pole saw. All waste will be processed through a wood chipper and removed from site for suitable disposal.

What are the risks? (describe any risks e.g. trade, H&S, people)

Contractor, staff, customers, property
