**Discharge of condition 14 of full planning permission F/19/86233
Land to the North and East of Boorley Green, Winchester Road, Botley, SO32 2UA**

We are submitting the revised documents in relation to condition 14 application ref: DC/23/94165.

Condition 14 – Commercial to Residential Sound Insulation

Reports accompanying application:

L1424.3 V6 - Commercial to Residential Sound Insulation

Environmental Health have asked for the full details of the calculations (methodology and rows of data / calculated values) that are summarised in the submitted document.

Our acoustic consultant has reviewed the report and states that all the relevant parameters for calculation have been included in the spreadsheet in Appendix A and can be cross-referenced against the methods included in BS EN 12354-1.

They have also added a table in the appendix to clarify the information already included in the spreadsheet above it.

I trust this satisfies the request by the EHO.
