

Schedule of proposed tree works at Woodbine Cottage, 3, High Street, Old Burseldon, SO31 8DL

Tree No & Species	Location	Proposed works	Reason
T1 Sycamore (<i>Acer pseudoplatanus</i>)	Southern boundary between Woodbine cottage and Hacketts - within curtilage of Woodbine cottage	Fell to near ground level, treat with herbicide to prevent regrowth e.g. Ecoplugs or similar Glyphosate-based product.	Self set, poor form. Competing with fruit and beech tree in small space. Will allow other trees more resources to thrive.
T2 Beech (<i>Fagus sylvatica</i>)	Southern boundary between Woodbine cottage and Hacketts - within curtilage of Woodbine cottage	Crown lift to 4.5m. Limit cut size to 65mm in diameter and take back to parent branch or stem – no stub or internodal cuts.	To give space and light to apple trees growing beneath.
T3 Grey willow (tbc) (<i>Salix incana</i>)	Southern boundary between Woodbine cottage and Hacketts - presumed to be within curtilage of Hacketts - consent agreed with owner.	Fell to near ground level, treat with herbicide to prevent regrowth e.g. Ecoplugs or similar Glyphosate-based product.	Asymmetric crown spreading low over productive section of 'Hacketts' garden: to give space and light to fruit cage. To reduce impact of tree and ivy on garden of Woodbine cottage.
T4 Laurel (<i>Prunus laurocerascus</i>)	Southern boundary between Woodbine cottage and Hacketts - presumed to be within curtilage of Hacketts – - consent agreed with owner.	Fell to near ground level, treat with herbicide to prevent regrowth e.g. Ecoplugs or similar Glyphosate-based product.	Outgrown hedging. Inappropriate species for location. Posing too much competition to adjacent fruit trees – a pear has already died.

Location plan and photos follow on next page.

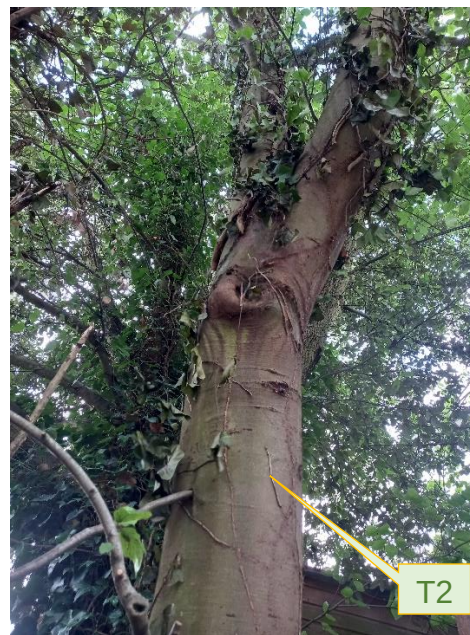

Tree locations

T1 & T2 Photo

T1 multi stem form – 4 stems 200 – 100mmØ

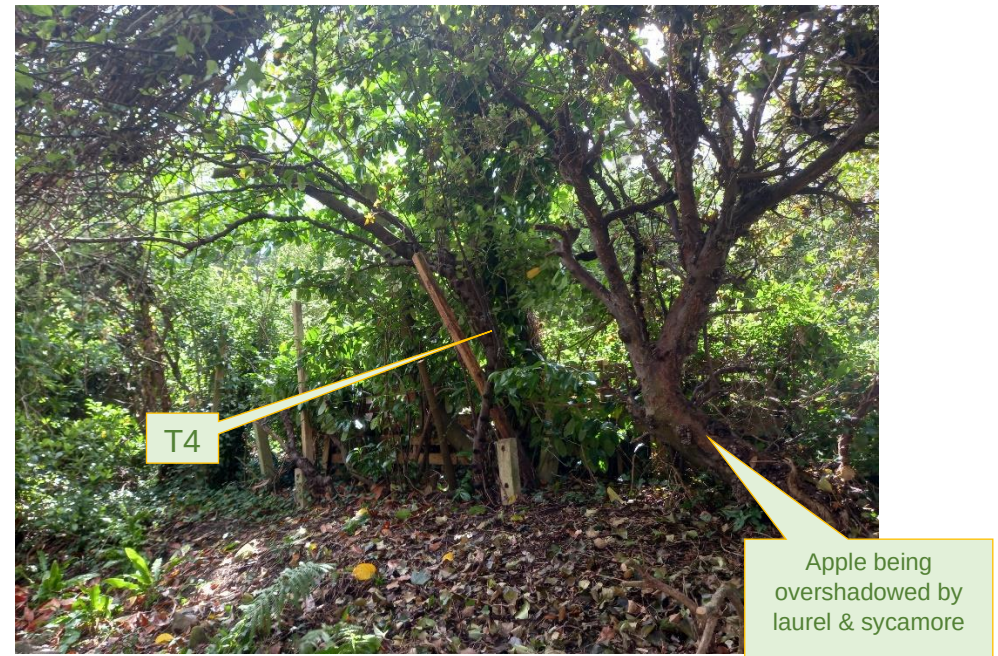

T2 beech stem

Apple tree - remove fallen ivy from canopy

T3 willow (in neighbour's garden) fell to near ground level and treat with herbicide

T4 laurel (presumed in neighbour's garden) to remove and treat with herbicide
