Liz,

DC/22/94010 - Phase 1

Condition 22 of X/21/91994 states:

With the exception of Phase 1a no excavation, demolition or development related works shall commence until evidence has been submitted and approved in writing by the Local Planning Authority to demonstrate that the tree protection measures have been installed, as detailed in the tree protection plan. Tree protection measures in Phase 1a shall be in accordance with the drawings P1388.PH.01 rev D "Phasing Plan" and MILL22453-04B "Tree Protection Fencing – Phase 1a" and the email from Rob Collett, Miller Homes to Chris Stringer, Tree Consultant, EBC dated 24.11.20 with attached Tree Protection Fencing schedule dated 20.11.20 showing photographs of the fencing and the locations the photographs were taken from demonstrating the installation of tree protection fencing in accordance with MIMLL22453-04B, as approved under DC/20/89308. Once approved, no access by vehicles or placement of goods, chemicals, fuels, soil or other materials shall take place within the fenced area. Tree protection measures shall be retained in their approved form for the duration of the work. This condition may only be fully discharged upon completion of the proposed development, subject to submission of monthly monitoring reports, detailing supervision activity - as stated in ACD Environmental's "Arboricultural Impact Assessment & Method Statement" (reference MILL21068aia-ams, revision D dated 30.4.18), submitted as part of the original reserved matters approval RM/17/81628 - and inspections of tree protection measures.

Regarding the highlighted part, we are satisfied with the photographic evidence of the tree protection installation within phase 1, provided by the report reference Technical Note (rev A), and can recommend partial discharge of Condition 22.

Kind regards,

Chris.
