

Eastleigh Borough Council Tree Preservation Order and Conservation Area Assessment Form

Application Number	T/23/95480					
Surveyor	SK					
Address	26 WELLSTEAD WAY, HEDGE END, SOUTHAMPTON, SO30 2LE					
Proposed work	1 no. Birch (T1)- Crown reduction by 1-2 metres.					
Assessment Date	12/07/23					
Officer comments	Tree is growing in a central 'courtyard' of three-story dwellings and can be seen from the rear windows of all the properties on 4 sides. It is not very visible from the highway side of the properties, with only short glimpses being afforded from Wellstead Way and Pomeroy Crescent, but it does offer amenity to multiple properties. The reduction to a birch is ill-advised: the British Standard for tree works cites birch as being particularly unsuited to reduction cuts: 'Species of <i>Betula</i> [birch] which have particularly weak defences against the development of decay, should be pruned as sparingly as possible and without exposing heartwood or ripe wood. The trees are young and relatively small, but they are a light canopy species and suited to the location in which they have been planted. There are few other trees in the inner garden area, though there are trees to the south and east. The tree was possibly planted as a planning condition to replace lost canopy cover, but this has not been checked. There are no reasons for the work stated. Given the negative impact the works will foreseeably have, plus the reduction in amenity value in the short and foreseeable reduction the future life expectancy of the tree, the lack of substantive reason gives no ground for consent.					
Decision	Consent	Refuse	Part consent/ Part refuse	Withdrawn / Invalid	Conservation Area	
					Raise no objection	TPO
		X				
Decision notice	REFUSE: 1 no. Birch (T1)- Crown reduction by 1-2 metres.
