Subject: Maple place F/23/95574

My name is Laurence Yates and I live at 182 Chamberlayne Road .

Whilst I understand that there will be a development on this site, the current proposal makes no sense. On a previous proposal there were 3 houses on chamberlayne Road (opposite my house) and the flats on Derby Road which was entirely acceptable. For some reason, which no-one will convey either on a personal level or as part of the working group, the latest proposal has 3 potential family homes on the very busy Derby Road that has a heavy footfall and a busy bus stop. Opposite me is the flats which is tantamount to living opposite an office block and is completely out of keeping with chamberlayne Road and, I believe, out of sync with council policy. This current proposal will put enormous mental health issues on our family and completely destroy the current fantastic community spirit in my Road.

I sincerely hope that someone will see commonsense and revert to the proposal before this which I know everyone is happy to accept.

Yours sincerely Mr L Yates
