16th August 2023 —

Dear Ms Harrison,

**THE AGEAS BOWL, MARSHALL DRIVE, WEST END, SOUTHAMPTON,
SO30 3XH**

Thank you for your letter of the 2nd August 2023 and the opportunity to comment upon the application. Having considered the application I have the following comments to make with reference to the prevention of crime and disorder (Anti-Social Behaviour (ASB)).

Further to my letter of the 23rd September 2022.

Many of the points contained within my previous letter have been positively addressed.

I would reiterate the following points:

Vehicles parked within large car parks without any form of security are very vulnerable to crime, especially if there is easy public access. To reduce the opportunities for crime and disorder a Closed Circuit Television (CCTV) system should be installed with cameras deployed to provide images of the vehicles within the car parks. Automatic Number Plate Recognition (ANPR) cameras should be deployed at the car park access points.

Large car parks are often used for unauthorised gatherings of motor vehicles. During these meetings the motor vehicles are driven inappropriately. In the past meetings have involved several hundred motor vehicles. Such meetings can cause issues with local residents and cause issues on the public highway. To reduce the opportunities for such meetings barriers such as gates should be fitted at the road access into the car parks. The barriers should be of robust construction and fitted with the relevant ironmongery to make the barriers secure in the both the open and closed positions.

For crime and community information **www.hampshirealert.co.uk**

To reduce the opportunities for crime and disorder lighting conforming to the relevant section of BS EN 12464-2 should be provided. The lighting should be designed to work in conjunction with any CCTV cameras.

Lighting is known to reduce crime and disorder and reduce the fear of crime. To reduce the opportunities for crime and disorder and reduce the fear of crime lighting throughout the development (this must include all roadways, especially shared surface roads) should conform to the relevant sections of British Standard (BS) 5489-1:2020.

If I can be of any further assistance please do not hesitate to contact me.

Yours sincerely,

S York
Designing Out Crime Officer

DISCLAIMER

This survey is based on information supplied by yourself and the current crime trends. I can only give a view on what measures might reduce the risk of crime and there can be no guarantee that the measures will prevent crime. The advice is given free with no intention of creating a contract. Neither the Home Office or Hampshire and Isle of Wight Constabulary take any other legal responsibility for the advice given.
