- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.

Description

Please describe details of the proposed development or works including any change of use

The football pitch provision to the north of Places Leisure Eastleigh has previously been utilised for 4x 7v7 pitches. Due to the relocation of the Eastleigh District Mini Soccer League, these grass pitches are now going to be allocated for 2x 9v9 pitches, mean that the orientation of the pitches will change to north/south. To reduce a health & safety risk and prevent footballs entering the bowls club and to reduce the risk of damage to the green and clubhouse, ball stop netting is required.

The netting will be circa 6m in height and will run along the length of the bowls club fence, approximately 45m in length. The netting will enable the two sporting activities to be delivered in harmony and without conflict. Additional ball-stop netting is not perceived necessary on the remainder of the site as it does not present the same probability of occurrence due to the orientation of the pitches, or potential consequences should the ball leave the playing area due to their location within the site and distance from the site boundaries.

There will be no change of use.
