Decision notice	Group of lime trees (as shown on the map) - crown lift trees back to fence line to a height of 5.2 metre. Maximum cut size 70mm diameter.					
Conditions	Standard + maximum cut size 70mm diameter.					
Notes to applicant	Please dispose of arisings responsibly – do not put them back over the fence.					
Parish comments	Our tree consultant made the following comment I know these limes trees that overhang the recycling skips at Tesco's. Yes, it's time for their lower branches to be removed. I am reassured that the work will be limited as it is to be done with extended pruning saws rather than using a cherry-picker.
