Hi Rebecca

Application No. F/23/95680 - Coop

I am rather upset that suddenly this application has been put through when initially there was no mention of these new windows on the rear of the Coop.

I live in the Bungalow at 7 Brownhill Road, which is the grounds of the Brownhill Community Centre, directly behind the Coop, which is owned by Age Concern Chandlers Ford. I currently rent it and the entire garden to the rear.

The new windows will directly overlook my 2 bedrooms which are situated towards the Coop Carpark end of building. This will affect my privacy as I currently do not have anyone overlooking my property. This will mean for the sake of privacy I will have to install net curtains and draw curtains at any time the lights are on, neither of which I want to do.

The windows will overlook my entire garden so will absolutely have no privacy at all.

I do not believe this application has considered my privacy or property at all.

Also I cannot see anything about the effect of additional pressure on the parking in the location, which is often fully occupied.

I have attached photos from one of my bedrooms and also from my decking.

If you would like to see in person the effect this will have on my life please just give a ring.

Regards
