

DELEGATED OFFICER REPORT

Application Ref: H/23/95690

Site Address: 8 MEADOW GROVE, CHANDLER'S FORD, EASTLEIGH, SO53 3AT

Case Officer: Alexandra Stone

Description: Retention of pergola

Particular Site Constraints?	Yes ☐	No ☒
- Within Urban Edge		

Planning History?	Yes ☐	No ☒
Details ...		

Publicity:	Letters ☒	Site Notice ☐	Newspaper ☐
Representations:	<u>Objection</u> <u>9 Meadow Grove (Summarised):</u> Oppressive and overbearing, blocking the sun in the late afternoon/evening. Site plan incorrect as shed not included. No objection to a pergola but object to increasing the fence height beyond 6ft and lacking sun. Their understanding was it should be constructed 2m away from their boundary. <u>Officer comments:</u> The shed is not included in the application therefor does not need to be shown on the plans. The fence height is not shown to be increasing on the submitted plans. As the pergola is above what is allowed by way of permitted development, the application was submitted.		
Parish Council:	No Comments Received		
Ecologist:	No Objection		

Site Visit:	Yes ☒	No ☐

Policy:
National Planning Policy Framework Planning Practice Guidance Development Plan: The <u>Eastleigh Borough Local Plan 2016-2036</u> The most relevant policies are Strategic policies S1 and S2; and Development Management policies DM1, DM2, DM11 and DM14. Supplementary Planning Documents: Quality Places; Residential Parking Standards; Character Area Appraisals.

Assessment:
The development is considered acceptable and complies with policies DM1, DM11 and DM14 from the 2016-2036 local plan, in that: <u>Principle</u> The application is for the retention of a pergola situated in the rear garden. The pergola measures approximately 6m by 6.8m and 2.75m in height.

- The development is within the urban edge where the principle of development is acceptable.

Design and layout

- The design of the pergola is suited to the host dwelling in terms of its form, scale and appearance.
- The development would not be an overdevelopment of the site, would retain sufficient amenity space and meet parking standards.

Residential amenity

- The development accords with guidance set out in the 'Quality Places' SPD in that there will be no unacceptable impact on the amenity of the neighbouring properties in terms of loss of privacy, light or outlook.
- The pergola is situated to the rear of the garden and towards the boundary. The height of the pergola measures 2.75m which is marginally taller than what is allowed under permitted development (2.5m within 2m of the boundary), therefore 25cm difference would not be considered detrimental to outlook or overshadowing.
- The design and layout respects the character and appearance of the locality.
- The pergola would remain unseen from the front of the property.

Other material considerations

- There will be no adverse impact upon trees or other natural features worthy of retention.
- There are no likely significant impacts on the SPA.

Climate Change:

In July 2019, the Council declared a Climate Change and Environmental Emergency. In doing so it agreed, among other things, to: (a) put in place measures to ensure the Council's own operations and functions achieve carbon neutrality by 2025; (b) work with partners to aim for all projects and services delivered in the Borough to achieve carbon neutrality by 2030; (c) ensure that the Council's procurement policy recognises carbon neutrality as one of its primary considerations; and (d) recognise the urgency of action to mitigate and adapt to climate change in every decision taken by the Council. This is underpinned by the Climate and Environment Emergency Strategy 2020–2030 and the supporting Climate and Environmental Emergency Action Plan – Update June 2020.

The declaration of the Climate Change and Environmental Emergency demonstrates a strong commitment from the Council to achieve net zero. The NPPF, development plan and adopted local plan policy do not set this as a specific target, but it is a material consideration to be considered alongside all other material considerations. In any case addressing climate change is a core part of the NPPF and local plan policy. The need to support the economy is part of the Strategic Environmental Assessment for the adopted local plan, as is an assessment of climate impacts.

Equalities Implications:

Section 149 of the Equalities Act 2010 created the public sector equality duty. Section 149 states:

- A public authority must, in the exercise of its functions, have due regard to the need to:
 - a. eliminate discrimination, harassment, victimisation and any other conduct that is prohibited by or under this Act;
 - b. advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not share it;
 - c. foster good relations between persons who share a relevant protected characteristic and persons who do not share it.

When making policy decisions, the Council must take account of the equality duty and in particular any potential impact on protected groups. It is considered that this application does not raise any equality implications

Conclusion:

Recommendation:

PERMIT ☒

REFUSE ☐
