Good morning, Summer

It seems our recommendation has been taken as a comment the applicant must justify its proposals to us. Our recommendation is the applicant satisfies itself the accommodation is suitable for needs of the occupants.

We are not familiar with levels of noise or quality of sound suitable for learning disability or autistic spectrum disorder. These may be 'better' than for ordinary dwellings we usually advise upon.

Of course, we are happy in this case to have a chat with the applicant if it needs a helpful hand.

Kind regards

Jon

Jon Pyke
