SUBJECT: Planning Application F/22/93935 regarding Hilltop, Pinewood Park, Southampton SO19 6AL

FOR THE ATTENTION OF: The Head of Development Management (EBC) and Councillor Tonia Craig (EBC)

I again write on behalf of the residents of Pinewood Park (see copied email addresses) as we wish to complain in the strongest terms possible with regard to how Hilltop continue to proceed with their actions on the assumption the change of use from C2 dwelling to C3 Residential Care Home is a done deal.

Further to us previously reporting that the proposed work for modifications to the Annexe have already been completed, yesterday Rymacare held a Training Session for several people at Hilltop. Please see the attached photographs showing vehicle parking by those attending the training session and contractors working on site. These pictures clearly demonstrate our fears with regard to parking and street access, which would only get considerably worse should Hilltop become a fully operational care home.

As residents we feel our concerns are being totally disregarded and begs the question as to why Rymacare are investing the time and money before the decision on their application has been made, or have they already been granted unofficial, advanced approval?

We find the situation insulting and inexcusable and request a meeting with you both to fully understand what is actually going on with Hilltop's application.

Kind regards,
Adrian Gray
On behalf of the residents of Pinewood Park
