Date: 24-May-23

Tree Comment:

Survey Comment: Third party trees. Group of Lawson Cypress along southern boundary. In the middle of this group are two dead trees and one in advanced decline with foliage to only the lowest branch. It is recommended to contact the owner of these trees and request the 3 middle trees of poor condition are removed. A small amount of pruning is recommended for the tree on the west end of the group to clear the lowest branch away from the fence.

Details	Height	Spread	Stems	Ø	Maturity	Bat	Con Area	Prev Insp	Next Due	Condition	
					Semi-mature			N/A	24-May-25	Varied	
Observations	Root			Stem			Branch		Leaf/Bud		
	No visual defects						Major dead wood				
Work	Category			Action						Priority	Done

Tree Comment:

Survey Comment: Large specimen which dominates the rear garden and overhangs the neighboring gardens. The crown form is typical for this species, size and exposure, with many visible wounds to the end of branches, likely from historical branch snap outs/ storm damage. The crown does not appear to have been managed in recent year. There is a large amount of inner crown dead wood, low hanging branches touching neighboring property (summer house) and failed branches suspended in the top of the crown. Cavities on the East side of the main stem at 6 metres and 2.5 metres, lowest cavity is obscured by a toy ball wedged in the cavity opening, remnants from fruiting body present (photos taken). Recommended an aerial inspection is carried out and all finding formally recorded, results to be use to provide an informed recommendation on appropriate remedial works.

Details	Height	Spread	Stems	Ø	Maturity	Bat	Con Area	Prev Insp	Next Due	Condition
	21 m	11 m	1	1200 mm	Mature			N/A	24-Nov-24	Fair
Observations	Root	Stem		Branch		Leaf/Bud				
	No visual defects	Fungus or decay Old pruning wounds Cavities		Damage / wounding Minor dead wood Major dead wood Old pruning wounds Stubs		Normal				
Work	Category	Action		Priority		Done				
	Further inspection	Climb and inspect		3 Months		No				
	Remove	Suspended or broken branches		Critical		No				
		Major dead wood		3 Months		No
