Town and Country Planning Act 1990
The Town and Country Planning (Development Management Procedure) (England)
Order 2015

Application No. H/23/95981

In pursuance of their powers under the above Act and in accordance with your application received on Tuesday 12 September 2023 the Council, as Local Planning Authority hereby **Permit** the following :

Description: Alterations, extension and raising of roof by 1.0m and enlarged dormers to create additional first floor accommodation and single storey side extensions

Site: 13 KINGSWAY, CHANDLER'S FORD, EASTLEIGH, SO53 2FG

Subject to due compliance with the following conditions:

- 1 The development hereby permitted shall be implemented in accordance with the following plans numbered: Sheet-1 REV-3, Sheet-2 REV-4, Sheet-3 REV-3 and Sheet-4 REV-2.

Reason: For the avoidance of doubt and in the interests of proper planning.

- 2 The development hereby permitted shall start no later than three years from the date of this decision.

Reason: To comply with Section 91 of the Town and Country Planning Act 1990.

- 3 The materials to be used must match as closely as possible, in type, colour and texture those listed in the Materials Section of the application form and approved plans Sheet 3 Rev 3 and Sheet 4 Rev 2

Reason: To ensure a satisfactory visual relationship of the new development to the existing.

- 4 The first floor windows on the southern dormer serving the office and ensuite [as marked on the approved plan Sheet 3 Rev 3] shall be obscure glazed to Pilkingtons level 3 or equivalent with no more than a top-hung opening toplight. Once installed the windows shall be permanently maintained in that condition.

Reason: To protect the amenity and privacy of the adjoining residential properties.

Note to Applicant: It is possible that a sewer now deemed to be public could be crossing the development site. Therefore, should any sewer be found during construction works, an investigation of the sewer will be required to ascertain its ownership before any further works commence on site.

Note to Applicant: In the unlikely event of any bats being found during demolition or construction, all work must stop immediately, and Natural England must be informed. Additional information is available on the Bat Conservation Trust website at <https://www.bats.org.uk/advice/im-working-on-a-building-with-bats/ive-found-a-bat-during-works>.

Note to Applicant: Biodiversity enhancements have been recommended. A bat brick/box and a swift brick/nest box may be appropriate to build into the extensions. Built in boxes do not require maintenance and cannot fall off.

The Bat Conservation Trust recommends installing a bat brick/box at least 4m above the ground, away from artificial light sources, sheltered from strong winds and exposed to the sun for part of the day, facing south, south-east or south-west. (<https://www.bats.org.uk/our-work/putting-up-your-box>)

Swift nest boxes are best positioned under the eaves or on walls facing north, northeast or north-west out of direct sunlight, five metres above the ground, with clear adjacent airspace so swifts can access them in a high-speed direct flight. (<https://www.swiftconservation.org/Nestboxes%26Attraction.htm>)

Note to Applicant: In accordance with paragraph 38 of the National Planning Policy Framework (September 2023), Eastleigh Borough Council takes a positive approach to the handling of development proposals so as to achieve, whenever possible, a positive outcome and to ensure all proposals are dealt with in a timely manner.

Yours faithfully
