

This architectural line drawing depicts a building facade. On the left, a traditional structure features a gabled roof with vertical hatching and a wall of six rectangular windows arranged in two rows of three. To the right, a modern glass extension with a flat roof is attached. A wide staircase with a glass railing leads from the ground level up to the entrance of this glass section. Further right, a long, low glass wall or balcony runs horizontally. The drawing uses clean black lines on a white background, with some areas filled with light gray or hatching for texture and shading.
