Proposed work	Cypress (G1)- Cut back side overhanging garden by approximately 1m to maintain size in location.					
Assessment Date	10/11/23					
Officer comments	The trees are situated on the northern boundary. They form a group and have limited visibility from the public highway. The applicant has proposed to remove up to 1m from the side extending over the garden. This is reasonable for the management of the trees within their location. Proposed work is unlikely to be detrimental to overall amenity or long-term tree health.
