

**RETROSPECTIVE PLANNING APPLICATION FOR
9 NORMAN GARDENS, HEDGE END, SO30 4AW FOR MR R GALLANTRY**

This application is being submitted on behalf of Mr R Gallantry for a replacement summer house in the rear of No.9 Norman Gardens.

As can be seen in this picture Mr Gallantry has replaced the previous summer house with a new summer house that is slightly longer but of lesser height as the new one has a flat roof. An additional aspect to take into account is the hedging in No.4 Tudor Gardens has been cut back making any build work visible to this neighbour.

The floor level is the same as the existing refer to the comparison drawing 10538-PL-04 which shows the comparison of the previous summer house of the new one. As can be seen the newer house is lower in height than the previous one.

Also Mr Gallantry has installed a new 1.8m timber fence this fence has been installed on his side of the existing brick pier close boarded fence hence has lost 300mm from his boundary.

As Mr Gallantry has started the build we believe he should be able to continue with the build as the new build is lesser in height than the previous one and will not have an visual impact to the neighbouring properties and will look better.
