Subject: 30-32 Queens View, Netley, Southampton, Hampshire SO31 5EA_Site works and monitoring

Good afternoon Chris,

Just to inform you that all went as scheduled on Monday; the borehole was drilled to 5.00m bgl as planned initially and on the location shown on the RAMS.

The borehole logs are not yet available however, my colleague Rob dipped the well this morning and he found it being at 5.00m bgl as when installed and groundwater was encountered in the well at 4.75m bgl.

Kind regards,

Olia
