

Eastleigh Borough Council Tree Preservation Order and Conservation Area Assessment Form

Application Number	T/23/96337					
Surveyor	Charlotte Holloway					
Address	6 BOSVILLE, EASTLEIGH, SO50 4PD					
Proposed work	1no. Ash (T1) - Reduce side of tree over properties by 2m to bring line of canopy back past roof line.					
Assessment Date	16/11/23					
Officer comments	The tree is situated to the front of the property. It is a large mature ash that has very good amenity value. The applicant has proposed to prune the eastern side of the canopy by up to 2m. This proposal is considerably less than that proposed under application T/23/95838. Given that less photosynthetic material is proposed for removal and the work is unlikely to affect overall amenity, the work is deemed reasonable. However, it should be noted that at the time of inspection there is no sign of the tree suffering from ash dieback and there were no features noted that suggest an increased risk of limb failure.
