

Thank you for the appeal letter relating to 58 Brightwire Crescent, SO50 5SQ.

I would like to voice my support that Eastleigh Council is rightly enforcing action, as I find the particularly large outbuilding spoils the view and aesthetic of the gardens. Furthermore, we have already seen a domino effect with their neighbours at 60 Brightwire Crescent since copying and building a conservatory. This I am not concerned with but the same neighbours since went a step further and erected a small outbuilding in the communal car park! Which aside from being very odd and out of place, in conjunction with the building in question, they're both drastically spoiling the view and looks intrusive, along with the large leftover grab bags of sands, leftover brick piles etc. The whole area is looking awful, and all started with the above.

If no action is taken against either, what next, further outbuildings will continue to pop up and spoil what is otherwise a modern and lovely area when looking out onto the gardens and greenery.

Many thanks,
