

Representation on Planning Application
APP/W1715/W/23/3329598
63 Underwood Road, Bishopstoke, SO50 6FX

I wish to support the application for erection of an additional property on land at 63 Underwood Road, between 63 & 65 Underwood Road.

I am a former Eastleigh Borough Councillor for Bishopstoke and on the Borough Council I was Deputy Leader and Cabinet Member for Social Policy including Housing. I was an Eastleigh Borough Councillor for 20 years between 1998-2018. I am also a Bishopstoke Parish Councillor and have been since 1996 and was Chair of the Parish Council for many years.

This application is a very suitable application on an infill site, and so it is in line with policies in the adopted Local Plan. It would make best use of urban land and both help to meet the required housing numbers without increasing the numbers of housing that would need to be constructed on green field sites.

I understand there has been extensive pre-application consultation between Dr Chaffey and his consultant, Louise Cutts, and planning officers at Eastleigh Borough Council to ensure that all submitted applications follow best practice and are in line with officer advice on what is likely to be an acceptable application.

Parish Cllr Anne Winstanley
