

Email Correspondence - Neighbour Objection – 42 Queens View, Netley, SO31 5EA

Subject: F/23/96224 32A Queens View, Netley Abbey

Good Morning Rebecca,

I'm emailing about the above reference application. I realise that the consultation for this application ended last week and I have already submitted my objection however I was able to get some photo's that back up part of my objection, on Sunday, when there was a football match at the recreation ground. I have been unable to do this before now as many matches have been called off due to the pitches being waterlogged because of all the recent rain. I'm hoping that even though these are late, you may be able to take this additional information into account as it relates to the objection that was in, before the consultation period ended.

These pictures clearly show the parking issues on a match day and that the surrounding roads cannot accommodate the additional parking required when these events take place. Cars are parked in the grass verges and the surrounding roads are full. This is in contradiction to the findings of the parking report which as you will see, I have questioned.

Thank you for considering my email.

Kind regards, Hanna.
