Good morning Rebecca,

Thank you for consulting the Pollution Team on the application reference DC/26/100786 for the discharge of Condition 10 (road/footway details) and 23 (play provision details) of planning permission ref. F/20/89500, for the erection of 381 residential units with public open space, hard and soft landscape works, internal roads, footway/cycleways, associated parking spaces, substation, SuDS and associated infrastructure at Land West of Burnetts Lane, Horton Heath, Eastleigh SO30 2HH.

Neither of these conditions relate to noise directly but I understand that you require our input regarding noise.

I reviewed the play provisions document from Jupiter and I find it low risk, in terms of noise nuisance, and therefore acceptable as the provisions are focus for younger children and do not include skate parks or similar. There is still the risk of anti-social behaviours during the nighttime but still generally low risk if good illumination is provided etc.

Therefore I have no additional comments regarding noise and I find the proposal acceptable.

Thank you

Andre
