

Eastleigh Borough Council Tree Preservation Order and Conservation Area Assessment Form

Application Number	T/26/100917				
Surveyor	IF				
Address	11 ACORN DRIVE, CHANDLER'S FORD, EASTLEIGH, SO53 1GE				
Proposed work	1no. Oak (T1) - Reduce a lateral branch extending toward street light by approx. 1–2m, pruning back to the nearest suitable growth point, while retaining the tree's natural form and structural balance as per request from Southern Electric. The lateral growth is obstructing light output from the adjacent street light. Works to restore effective light coverage in the interest of public safety and amenity. Works will comprise a minor lateral crown reduction / selective pruning to the affected branch only. No reduction to the overall height or remainder of the crown is proposed.				
Assessment Date	26/02/2026				
Officer comments	TPO 297-E (G15) 3no. Oak T1 is a large oak in the front garden corner and offers a high level of public amenity. It appears healthy. Some branches encroach onto the street lights so the proposed pruning is considered a reasonable management of the tree in its environment and will not significantly affect the tree's visual amenity nor cause any detrimental effect to its long-term health and vitality.				
Decision	Consent	Refuse	Part consent/ Part refuse	Withdrawn / Invalid	Conservation Area
					Raise no objection
	X				
Decision notice	Consent to: 1no. Oak (T1) - Reduce a lateral branch extending toward street light by approx. 1–2m, pruning back to the nearest suitable growth point.
