Hi Liz,

To add to the HCC responses you sent SCC I'd clarify that the points for SCC:

- Other S106 - on the records we hold £432,313 on S106 funding from the various phases of the development of the former Ford factory in Southampton towards the Wide Lane Bridge & Spitfire Roundabout and will dig out copies of the Agreements and send over
- Crossing of Wide Lane (north arm from Spitfire Roundabout) - we would agree that an upgrade to the crossing is required to provide a safe route for people cycling, wheeling and walking to the site from along Wide Lane. It's an important connection and part of the identified Southampton Cycle Network (SCN) within our cycle strategy. The route and crossing of Wide Lane by the roundabout would provide people travelling on foot or cycling from Southampton with a safe direct crossing that would then link to the onwards routes along Mitchell Way. This is important as it provides the option for active travel to mitigate the impact on the Wide Lane/Mansbridge Road roundabout in Southampton from the additional trips by encouraging mode shift and meeting the vision that the site should be accessible by active travel. This reduction in traffic will also benefit bus services to the site who would be caught by the congestion on Wide Lane with is exacerbated by the development.

Thanks

Iain

Dear All

Please find attached the latest consultation response from HCC Highways, which includes comments about the potential use of developer contributions that you have collected and works to the Spitfire Roundabout and suggests your views are sought.

Please could you respond to the issues raised.

Many thanks
Liz
