PROPOSED TREE PLANTING 14 - 16cm girth Rootballed Refer to Plant Schedule for details.	PROPOSED TREE PLANTING 14 - 16cm girth Rootballed Refer to Plant Schedule for details.	PROPOSED TREE PLANTING 14 - 16cm girth Rootballed Refer to Plant Schedule for details.	PROPOSED TREE PLANTING 14 - 16cm girth Rootballed Refer to Plant Schedule for details.	NOTE: For plant species, densities and sizes refer to Plant Schedule and Landscape Specification. Main contractor to determine exact location of services/drainage, this should be confirmed on site prior to commencement of works to avoid tree pit / services conflicts. External light fitting types and locations are to be confirmed with the Electrical Engineer. External levels of hard surface treatments are to be co-ordinated with Engineers design & specifications. All treatment of softwork areas to comply to BS4428 Code of Practice for general landscape operations. This drawing assumes that the existing site soil could be re-used. However this is subject to detailed testing and analysis of soil. If the soil is not suitable, imported soil will be required in accordance with the Landscape Specification. All tree, shrub species supplied for designated areas are to be determined by the proposed planting season. (ie bareroot or container grown stock). PLEASE REFER TO DRAWING NO. 332612639 STA-14-ZZ-DR-L-2510, FOR PLANT SCHEDULE.
PROPOSED HEDGE PLANTING See Plant Schedule for details Hedge plants, 2x transplants Hedging to be planted at 5 plants per linear metre in a double staggered row with 450mm topsoil min, and 550mm subsoil with 50mm bark mulch to surface dressing.
