Dear Gina,

Thank you for consulting the Pollution Team on the Planning application DC/26/101050 for the discharge of Condition 5 (CEMP) of H/25/99642 for the construction of First floor extension to east side elevation, to include raised ridge height and alterations to fenestration to rear and east side elevations at BRIDGE HOUSE, 56 MISSENDEN ACRES, HEDGE END, SOUTHAMPTON, SO30 2RE.

We have reviewed the CEMP document produced by Cloud 9 Architecture (February 2026). From the pollution perspective, this document satisfactorily addresses the requirements outlined in Condition 5, including control measures for noise, dust, silt discharge, storage, waste. However, I would like to address that, working hours are not explicitly included in the document. We assume it would be the standard working hours (Mon-Fri 8am to 6pm and Saturdays 8am to 1pm, no working on Sundays or bank holidays) to avoid any nuisance to neighbours. We recommend this to be included to discharge the condition.

I trust the above information is of assistance. If you have any further queries, please do not hesitate in contacting us.

Best regards,

Yacklin
