Description of Proposed Works

Please describe the proposed works

This application seeks permission to use the existing first-floor room above our detached garage as ancillary accommodation (annex) to the main dwelling. The accommodation will be used solely by our son and at times family, who will remain part of the main household. The space will not be rented out, occupied independently, or sold separately. The annex shares all utilities with the main house, including water, electricity and gas. Although the annex has its own boiler for heating and hot water, it is not separately metered and remains fully dependent on the main dwelling for all services. The annex will contain a sink and worktop only. It will not include any cooking facilities such as a hob, oven or cooker, ensuring it cannot function as a self-contained dwelling. The building is located approximately 3 metres from the main house and is accessed via the same driveway and garden area. It remains clearly subordinate to the main dwelling in both scale and function. No external alterations are proposed. The development will not affect the character of the area, neighbouring amenity, or parking arrangements. The proposal complies with Eastleigh Borough Council's policies on ancillary accommodation and represents a modest, family-based use of an existing building.

Biodiversity net gain

Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 sets out that every planning permission granted for the development of land in England shall be deemed to have been granted subject to the 'biodiversity gain condition' requiring development to achieve a net gain of 10% of biodiversity value.

This is subject to exemptions, an exemption applies in relation to planning permission for a development which is the subject of a householder application, within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order (2015)*.

Applicants for planning permission are required to make a statement as to whether they believe the biodiversity gain condition will apply if permission is granted, please confirm:

☒ It is my belief that if permission is granted for the development to which this application relates the biodiversity gain condition would not apply

*A 'householder application' means an application for planning permission for development for an existing dwellinghouse, or development within the curtilage of such a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse which is not an application for change of use or an application to change the number of dwellings in a building.
