Condition 6 (Bat Licence): Following a review of the previous bat surveys by a Principal Ecologist at Ecology Works with nearly 20 years' experience they have advised that as the works are being undertaken are impacting a confirmed roost of soprano pipistrelle bats, the development is eligible for Natural England's "Low Impact" bat licence, otherwise known as the Bat Mitigation Class Licence (BMCL). This is an EPS licence that is used for smaller sites with fewer bats, with the works overseen by a specialist bat mitigation consultant. Ecology Works Ltd have applied to Natural England to use a WML-CL21, the Bat Mitigation Class Licence for these works. No work to the property will take place prior to Natural England confirming approval that works can commence.

Condition 7 (Construction Environment Management Plan (CEMP): The document attached is a site-specific document outlining how the construction project will manage environmental risks and minimise ecological impact. It details practical measures for controlling works to protect the local community and habitat.
