Hi Gina,

I hope you are well. Thank you for your message.

The PV panels are proposed to be removed.

The dormer walls will be finished with horizontal cladding and **not** tile hanging.

Hopefully this is helpful, is there anything else you need confirmed?

Kind Regards,

Chris Aubin
Director

Good morning,

I hope you are well.

I have been reviewing the above planning application and am currently writing the report.

Could you confirm the below couple of points for me please.

- Are you able to provide which wall material will be used for the rear dormer? The plans state 2 options, cladding or hanging tiles. If this cannot be provided at this point, I intend to condition the decision to be confirmed to us prior to installation - subject to the planning managers discretion.
- I note there are currently solar panels attached to the rear side of the roof. Can you confirm if these are going to be relocated or removed completely.

Kind regards,
Gina

Gina Aftanas
