

Ecology response for H/26/101086 31 BEMBRIDGE, NETLEY ABBEY, SOUTHAMPTON, SO31 5PN

Single storey side/rear extension. (Resubmission of elapsed planning permission H/22/92662)

Dorothy Hei-Tung-Hoh

20/4/26

There are records of bats and badgers near this site. I have reviewed the site photos submitted for the previous application and do not see any potential habitat features for either of these species. The area that would be impacted by this proposal is existing hard standing. No objections.

Biodiversity enhancements will be required in accord with Local Plan policy DM 11 and NPPF (December 2024) paragraphs 187d and 192 b. A bat box and a swift nest box may be appropriate additions for this site.

The Bat Conservation Trust recommends installing a bat brick/box at least 4 m above the ground, away from artificial light sources, sheltered from strong winds and exposed to the sun for part of the day, facing south, south-east or south-west. (<https://www.bats.org.uk/our-work/putting-up-your-box>)

Swift nest boxes are best positioned under the eaves or on walls facing north, northeast or north-west out of direct sunlight, five metres above the ground, with clear adjacent airspace so swifts can access them in a high-speed direct flight. (<https://www.swiftconservation.org/Nestboxes%26Attraction.htm>)
