Description of Proposed Works

Please describe the proposed works

To replace the original wire link fence to the rear border of the property parallel to the pavement of North Millers Dale highway with a standard 6ft wooden panel fence and low concrete gravel boards. The total height not to exceed 2 metres. We need this in order to secure the rear garden for a dog.

The garden is currently higher than the pavement level to the rear of the property and there is also a 7 foot (approximate) bank at the rear which further elevates the garden over the existing 1 metre fence adjacent to the road.

The fence will have standard concrete posts and concrete gravel boards and be approximately 26.5 metres in length. It will be on the boundary line and will not interfere with access to the lamppost, which is achieved via the pavement.

Has the work already been started without consent?

- ☒ Yes
☐ No

If Yes, please show on the plans, indicating the scale, which trees by giving them numbers (e.g. T1, T2 etc) and state the reference number of any plans or drawings

There are two trees (T1 and T2) on the bank nearest to the fence (In falling distance) but will not need removal or pruning. There is also a tree on the property next door (T3) close to the border which is also in falling distance but also does not require pruning.

The bank to the rear of the property is populated with Laurel trees and is pruned back to the rear border every two years. They were last pruned in 2025 and will need minor pruning to allow the fence to be built.
