Town and Country Planning Act 1990
The Town and Country Planning (Development Management Procedure) (England)
Order 2015

Application No. H/26/101065

In pursuance of their powers under the above Act and in accordance with your application received on Monday 23 March 2026 the Council, as Local Planning Authority hereby **Permit** the following :

Description: Single storey rear extension
Site: 79 BROWNHILL ROAD, CHANDLER'S FORD, EASTLEIGH,
SO53 2FJ

Subject to due compliance with the following conditions:

- 1 The development hereby permitted shall start no later than three years from the date of this decision.

Reason: To comply with Section 91 of the Town and Country Planning Act 1990.

- 2 The development hereby permitted shall be implemented in accordance with the following plans numbered: DWG Plans 04587 Rev B, DWG Plans 04591 Rev B, DWG Plans 04588 Rev B, DWG Plans 04590 Rev B, DWG Plans 04589 Rev B & DWG Plans 04592 Rev B

Reason: For the avoidance of doubt and in the interests of proper planning.

- 3 The materials to be used must match as closely as possible, in type, colour and texture to those listed in the materials section of the application form.

Reason: To ensure a satisfactory visual relationship of the new development to the existing.

- 4 No excavation, demolition or development related works, including placement of goods, chemicals, fuels, soil or other materials, shall take place within the calculated Root Protection Area (as defined by British Standard 5837) of any tree protected under Tree Preservation Order legislation, except where hard standing already exists.

Reason: to retain and protect the existing trees which form an important part of the amenity of the locality.

Note to applicant: In the unlikely event of any bats being found during demolition or construction, all work must stop immediately, and Natural England must be informed. Additional information is available on the Bat Conservation Trust website at <https://www.bats.org.uk/advice/im-working-on-a-building-with-bats/ive-found-a-bat-during-works>.

Note to applicant: Any excavations or open pipes will need to be covered at night, or provided with a small animal escape ramp (a rough board at a shallow angle) to allow animals to escape if they fall in. If animals are found on site, they should not be handled but must be allowed to move away to safety on their own.

Note to applicant: Biodiversity enhancements will be required in accordance with Local Plan policy DM 11 and NPPF (December 2024) paragraphs 187d and 192 b. A bat box and a swift nest box may be appropriate for this building. The Bat Conservation Trust recommends installing a bat brick/box at least 4 m above the ground, away from artificial light sources, sheltered from strong winds and exposed to the sun for part of the day, facing south, south-east or south-west. (<https://www.bats.org.uk/our-work/putting-up-your-box>)

Swift nest boxes are best positioned under the eaves or on walls facing north, northeast or north-west out of direct sunlight, five metres above the ground, with clear adjacent airspace so swifts can access them in a high-speed direct flight. (<https://www.swiftconservation.org/Nestboxes%26Attraction.htm>)

Note to Applicant: In accordance with paragraph 39 of the National Planning Policy Framework (December 2024), Eastleigh Borough Council takes a positive approach to the handling of development proposals so as to achieve, whenever possible, a positive outcome and to ensure all proposals are dealt with in a timely manner.

Yours faithfully

A handwritten signature in black ink that reads "N Parker".
