Town and Country Planning Act 1990
The Town and Country Planning (Development Management Procedure) (England)
Order 2015

Application No. H/26/101070

In pursuance of their powers under the above Act and in accordance with your application received on Monday 30 March 2026 the Council, as Local Planning Authority hereby **Permit** the following :

Description: Replacement of wooden windows and front door.
Site: 34 CHURCH ROAD, BISHOPSTOKE, EASTLEIGH, SO50 6BJ

Subject to due compliance with the following conditions:

- 1 The development hereby permitted shall start no later than three years from the date of this decision.

Reason: To comply with Section 91 of the Town and Country Planning Act 1990.

- 2 The development hereby permitted shall be implemented in accordance with the following plans numbered: Block Plan, Part 6, Part 3, Part 4, Part 1, Part 2, Part 5, TQRQM26084144649843 and TQRQM26084150722665

Reason: For the avoidance of doubt and in the interests of proper planning.

- 3 The materials to be used must match as closely as possible, in type, colour and texture to those listed in the materials section of the application form.

Reason: To ensure a satisfactory visual relationship of the new development to the existing.

Note to applicant: The replacement front door is to have no silver door seals showing, particularly at the threshold.

Note to applicant: In the unlikely event of any bats being found during demolition or construction, all work must stop immediately, and Natural England must be informed. Additional information is available on the Bat Conservation Trust website at <https://www.bats.org.uk/advice/im-working-on-a-building-with-bats/ive-found-a-bat-during-works>.

Note to applicant: A bat survey will be required if the roof is to be repaired or replaced, whether or not it requires planning permission. The Wildlife and Countryside Act (1981 as amended) is the primary legislation that protects wild animals, plants, and habitats in the UK. It lists the species which are protected by law along with their resting places and the non-native invasive species which must not be allowed to spread into the wild. If you suspect that protected or invasive species may be affected by your development, it is your responsibility to get an ecology survey and implement the recommended mitigation measures.

Crown Prosecution Service Wildlife Offences available at: <https://www.cps.gov.uk/legal-guidance/wildlife-offences>

Note to applicant: Biodiversity enhancements will be required in accord with Local Plan policy DM 11 and NPPF (December 2024) paragraphs 187d and 192 b.

A bat box and a swift nest box may be appropriate for this building. The Bat Conservation Trust recommends installing a bat brick/box at least 4 m above the ground, away from artificial light sources, sheltered from strong winds and exposed to the sun for part of the day, facing south, south-east or south-west. (<https://www.bats.org.uk/our-work/putting-up-your-box>)

Swift nest boxes are best positioned under the eaves or on walls facing north, northeast or north-west out of direct sunlight, five metres above the ground, with clear adjacent airspace so swifts can access them in a high-speed direct flight. (<https://www.swiftconservation.org/Nestboxes%26Attraction.htm>)

Note to Applicant: In accordance with paragraph 39 of the National Planning Policy Framework (December 2024), Eastleigh Borough Council takes a positive approach to the handling of development proposals so as to achieve, whenever possible, a positive outcome and to ensure all proposals are dealt with in a timely manner.

Yours faithfully

A handwritten signature in black ink that reads "N Parker".
