Subject: DC/26/101362 Chickenhall Lane - hard landscape materials - landscape comments

Hi Rebecca,

I have reviewed the submitted external surfacing schedule and plan for this site. I can confirm these are acceptable with a reasonable range of good quality products.

I think Tim D. provided the last round of landscape comments on the full application. Looking at the landscape plan submitted at that time, there are extensive areas of planting indicated. Where are we with a detailed planting plan as this will be an important element of the scheme?

Thanks Tim

Tim Griffin
