Subject: Eastleigh Borough Council response to application ref. HCC/2026/0269 - Hamble Primary School - hardstanding and play area

Dear Molly

Hamble Primary School – application for addition of hardstanding to car park and new external play area – ref. HCC/2026/0269

Eastleigh Borough Council raises no objection to the above planning application, but would like to offer the following advice from the Council's Ecologist:

The proposed post development habitat recommendation is to add 23 heavy standard Prunus avium trees. It would be beneficial to have a variety of species in case there are pests or diseases that target the species. A variety of tree species would also extend the flowering season, providing more resources for pollinators.

Please do not hesitate to contact me if you require any further information.

Kind regards,

Rebecca Altman
