Good morning, Rebecca,

Please find attached updated landscaping details responding in full to the comments from your Landscape Officer.

In addition to the attached our consultant has made the following observations:

Point 2: Based on photos of the entrance, we do not believe a replacement hedge will be required; however, we have allowed for replanting.

Point 7: We have retained the 1 per sq.m planting density but have increased the plant size to 60–80cm as suggested.

I would be grateful if you could reconsult the Landscape Officer at your earliest opportunity.

Best wishes,

Jacob

Jacob Goodenough
Director
