

PROPERTY AND BOUNDARY OVERVIEW

Plan showing the position of the tree on the boundary line and the relationship between the properties.

BOUNDARY LINE

The red dashed line indicates the boundary between our property and the neighbouring garage/parking area.

TREE LOCATION

The tree is situated directly on the boundary line and has grown into the neighbouring garage and parking area.

OUR PROPERTY

The blue dashed line indicates the extent of our property (boundary includes fences/hedges where applicable).

REAR GARDEN

The tree prevents the installation of a secure boundary fence, leaving the rear of the property accessible from the neighbouring garage area.
