

39 Castle Lane Chandlers Ford SO53 4AH 062657

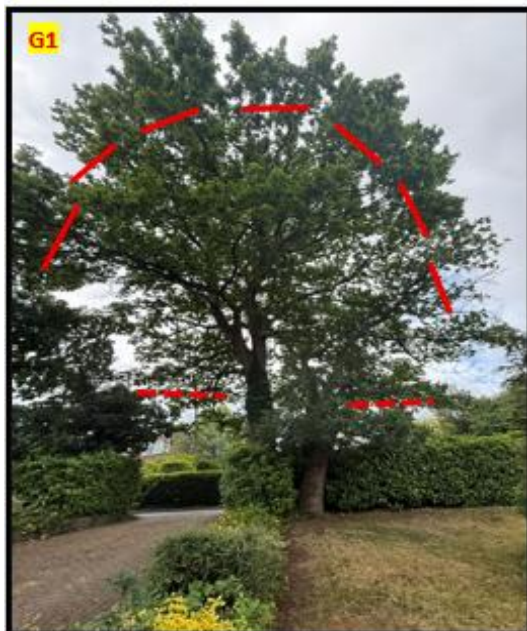

G1 – 2no. Oak trees, growing as a single canopy.

- Reduce the overall canopy height from approximately 20 metres to no less than 16 metres, with pruning cuts not exceeding 55 mm in diameter.
- Reduce the overall canopy spread from approximately 19 metres to no less than 16 metres, with pruning cuts not exceeding 40 mm in diameter.
- Crown lift to 5.5 metres above the adjacent highway to provide statutory clearance.
- Remove epicormic growth from the stems up to a height of 6 metres above ground level.

Reason for Works

The proposed works are intended to provide appropriate clearance over the highway, maintain safe vehicular access, and manage the size of the combined canopy while retaining the trees' overall form, health, and amenity value. The works constitute routine arboricultural management and are limited in extent to ensure the long-term vitality and structural integrity of the trees.

Works to be carried out in accordance with BS3998(2010), nearest best practice pruning points.

Please note: For example, purposes only and does not represent the finished shape as works to be carried out in accordance with BS3998(2010), nearest best practice pruning points.
