Non-Material Amendment(s) Sought

Please describe the non-material amendment(s) you are seeking to make

Please refer to the attached covering letter for full details.

We would like to make an amendment to the design and construction of the refuse area for the retail unit.

We have proposed a change to the guard railing on the roof from a fixed system to a counter weighted system.

We have also made proposals to adjust the locations of the rain water pipes.

We have proposed a change to the orientation of the VM Zinc cladding from being horizontally installed to a vertical installation.

Please state why you wish to make this amendment

The originally designed refuse area for the retail unit was for paper and recycling only, and we would like to make the amendment to create enough space for full food, waste and recycling bins in order to prevent use of the residential areas by the retail tenants and to avoid unsightly bins within the area.

Our proposed amendment to the guard railing on the roof will prevent penetrations into the roof make-up and will allow better space for the PV installation in addition to ensuring full safety compliance.

Our proposed relocation of the rain water pipes amendments will provide better drainage to the flat roof areas and balconies.

The proposed change to the orientation of the VM Zinc cladding will reduce maintenance obligations for the client and prolong the life of the product.
